Research: User research, user interviews, journey mapping, usability testing, stakeholder interviews, A/B testing, NPS, CSAT

Tools: Figma, Sketch, Adobe XD, Principle, Adobe Photoshop, Adobe Illustrator, Figma Make, Claude

PROFESSIONAL EXPERIENCE

Senior Product Designer | Snappfood *2024 – June 2025*

Snappfood is a food and grocery delivery platform similar to Uber Eats, serving over 9 million active users.

- Designed vendor workflows for Dakhel, Snappfood's restaurant management product, covering onboarding, menu management and access to customer feedback.
- Redesigned menu creation to address usability and standardization issues, simplifying vendor workflows and making customer-facing menu presentation more consistent.
- Streamlined workflows for adding, editing and deleting products in Dakhel's back office.

Senior Product Designer | Digipay, Digikala Group *2020 – 2024*

DigiPay is a fintech platform serving 10 million monthly active users with digital payments, BNPL, and financial services.

- Designed credit journeys covering activation, purchasing, installment payments and settlement, partnering with product and engineering to launch a redesigned credit plan selection flow.
- Led funnel research using journey mapping and interviews with 15 users per drop-off stage to uncover eligibility, documentation and guarantee barriers.
- Developed three selection concepts with a junior designer and coordinated usability testing with eight users per concept across the design chapter.
- Restructured plan comparison and information hierarchy to surface critical requirements earlier. Follow-up usability testing showed clearer understanding and fewer points of confusion.
- Presented research findings to business stakeholders and helped establish more regular user research and usability testing within the team.

UI/UX Designer | Tosan *2015 – 2020*

TOSAN is a leading banking technology company providing banking and payment software to over 50 banks and financial institutions.

- Redesigned a legacy internet banking product, simplifying the interface and introducing widgets for quick access to frequently used services.
- Streamlined common banking tasks, including electronic transactions and bill payments, within an updated user interface.

EDUCATION AND CERTIFICATIONS

Bachelor of Arts in Graphic Design | Maziar University of Rouyan | 2012

UX Design Certificate | University of Tehran | 2019

Recognition: Dr. Noorbakhsh Festival, Best Product in Customer Services for Saman Internet Banking | January 2019
